Ron -

Attached, please find the diagrams discussed on Friday. The first is an updated version of the previously-provided call flow diagram that has been revised to reflect redundant trunking. The second is series of diagrams that detail SS7 connectivity, per Gene Kolker's request.

Pursuant to paragraphs 13 & 14 of the Memorandum of Understanding (MOU) entered into by our companies on October 18, 2000, and pursuant to the Mutual Confidentiality and Nondisclosure Agreement referenced in paragraph 14 of the MOU, the attached diagrams shall be considered confidential and proprietary.
